Workshop Djembé

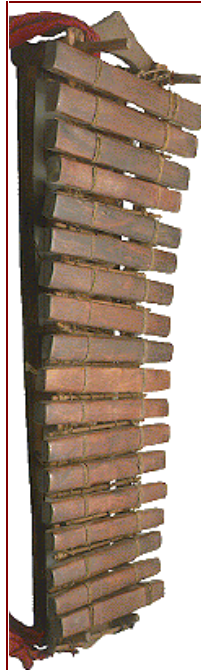

The workshop African djembé is pointing on this expressive element. Also there shall be learned that drumming on a djembé is meaning to communicate with your fellow musicians. At this manner their shall be recognised a rhythmic togetherness in where the player will be a part of the joyfull effects that african music will bring to that concious level. Pleisure en playing together are therefore the most important issues in a methode that we use to guide you towards a happy djembéplayer want.

Unexpected possibilities shall be activated and improvisation of the players to play with their own feelings are comming fromwithin themself as it

The djembé is become an instrument to express the action in themself; its their own reaction towards the social environment inwhere he or she is.

A workshop of one or two hours to enjoy enormously fromthe djembébeats; to get the feeling you where one with african music and that to experience with all your fellow players. That is the goal we want to reach at groupos of children as well as in groups of adults; by jamming and swinging in a session at the end of A djembéworkshop shall be a happy occassion in where every person shall enjoy him- or herself and afterwards shall recognise that it opens the fine feelings of themselfe.

Succes is a garantee and your question is our challenge !

Percussion-instruments & accessoires

Because it 's obvious that not everybody does own a djembé, drums are presented for rental during courses and workshops. After the rent it is possible to buy these djembees for a prize minus the prize of the rent.

In cooperation with importers of African products, we informand guide you to a satisfied buying of all types of African musical instruments and -accessoires, like djembéstraps and carrying bags, books with rhythms, and ofcourse all kinds of djembees in different sizes and

Repairing & Maintenance

Repairing a damaged djembé is for a musician an unpleasant intervention. It brings beside the costs also a change of play with itself when again the tension on the skin has been introduced, since every drumskin does produce another sound.

Because a repairer uses several types of animal skins, the originality of it have to be approached as much as possible. Afterwards the musician itself have to try out the consonance shaping to hear the music which at him/her that is appropriate.

After a correct placing, where much patience and precision is necessary, the djembé shall produce its sounds again like it was before.

Make contact with us and your djembé shall sound like it did before !

Courses Djembé & Balafon

In Nistelrode we present courses djembé and balafoon for children and adults. The balafon in groups of 5 pupils, djembé in groups of 10 pupils. Musicalpieces and several rhythms are learned together and played with others.

In these courses a lot of information shall be given about the cultural background of the musical life in Afrika and how the sociality is known with it.

Workshop Balafon

The warm, subtle tones of this atmosphere-making instrument, the cozy authentic melodies and wonderful business of making music together does provide a great activity. Suitable for schools, institutions and companies, groups of friends, birthday parties and bachelor parties.

Like the workshop Djembe Percussion here is again leading the fun and interaction. No complicated techniques, but a pleasant instruction where the participants achieve in one hours time together a beautiful musicality, where African rhythms and wild game (with vocals) in each flow.

In our current offering this workshop can be offered to groups of 14 participants.
